

Agreed support plan has not engaged Person / Family

Am I concerned just because they are not engaging or do I have evidence that non-engagement increases the likelihood and severity of the identified risk?

Complicating Factors

- Mental Health
- Substance use
- Safeguarding Risks
- Family Pressure
- Family acting as a gatekeeper?
- Accommodation worries
- Lacks Mental Capacity in specific situations
- Capacity but still Vulnerable?
- Fluctuating Capacity
- Duress?

Strategies to Consider

- Develop working relationship
- Discuss support plan with individual/family
- Calls
- Home Visits / Joint Visit
- Letters
- Appointments
- Other agencies
- GP Contact
- Trusted Family Member
- Carer's assessment
- Advocacy
- Reflective practice discussion/supervision
- Line Manager Discussion
- Safeguarding Advice

Consider

- Am I colluding?
See Below for explanation

Next Steps

- Make sure the person understands what the concerns about their safety are and what they need to do for workers to feel that they are safe
- Do not close the case
- Discuss with line manager
- Risk Assessment
- Consider Mental Health Assessment
- Consider Mental Capacity Assessment
- Legal Advice
- Seriously consider a face to face Multi-Agency Strategy or Risk Assessment Meeting * and communicate the outcomes to other relevant agencies Do not assume that someone else is doing something-communicate
- Seek Advice from other agencies
- Submit a cause for concern to Safeguarding Team Worcestershire County Council if there is concern regarding risk of abuse or neglect

Inaction could lead to -

Risk to Person/Family Abuse, Neglect, Injury, Death

Risk to Organisation

- Safeguarding Adult Review
- Organisational reputation issues
- Negative Media Coverage
- Compensation / Damages

Risk to Worker

Dismissal, Disiplinary action, Fitness to practice proceedings

Risk assessments should be routinely completed when a case is to be closed because of a failure to co-operate / engage or keep clinical appointments. As part of this there is a requirement to actively check with other agencies known to be in contact with the person . Cases should only be closed when mulit-agency risk assessment does not identify a medium/high risk.

Am I colluding?

- Am I colluding to avoid conflict i.e. taking the word of a family member rather than speaking to the vulnerable adult themselves?
- Am I minimising negative information in order to avoid provoking a reaction?
- Am I hesitant to share my concerns in order to avoid confrontation?
- Am I keeping my concerns to myself or am I sharing them with my line manager?
- Am I relieved when there is not answer at the door?
- Am I focussing on the family needs not the needs of the adult at risk?
- Am I avoiding speaking to the person themselves?
- Am I relieved when there is no answer at the door.
